

Week 21

The second Michalov edging has a little shell. It is a colorful edging in blue, red and white. In the Michailov laces after several different threads where used. Not only in color, but also in thickness and material.

This edging is made of linen 35/2 (blue), aida coton 15 (red) and coton perlé 5 (white).

In total you need 8 pairs of bobbins with the above mentioned threads or of similar thickness.

Also i this edging only a few pins are used. The thread diagram shows them. Furterhmore you can also use 1 pin in the inner curve of the shell. This one is replace after every row. When the shell is finished, the pin can be removed and used for the next shell.
