

Week 26

In this edging of Russian tapelace the gimp is worked as a stem stitch.

You need 7 pairs of bobbins with linen 40/2 or similar and 1 pair with a thicker gimp.

The stem stitch is worked as follows:

Hang the pair with the gimp in the middle of the tape. Lay the workers over the left gimp thread and under the right gimp thread. Twist the gimp pair once. Repeat this in every row. See also the drawing below.
