

## Week 30

This is the start of a new series point ground laces. The first one, designed by Ria de Ruiter is a simple one with a gimp around the motifs. One motif is with homeycombs and the other with honeycombs and a cloth stitch diamond in de middle. One side with a straight edge and the other with picots.

You need 15 pairs of bobbins with Egyptian cotton nr 80/2 or similar and 1 pair with a gimp, ie. DMC embroidery cotton nr 16.

As the diagram shows the straight edge is on the right side as it is done in the point ground laces. There are no difficulties in this insertion.
