

## Bruges flowers

Necessary: 8 pairs of bobbins for the flowers and fillings.. Thread: Linen nbr. 50

The flowers have 6 or 8 petals. These are made as a tape, that becomes wider and narrower. The petals are worked alternately in Cloth stitch and half stitch.

Look carefully, before you start the alower, where it is the best place to cast off, sothat you can use some pairs for the filling without castiing off these. On this plas you start with a cloth stitch petal.

All flowers are with a whole stitch at both sides. At the deepest point between two petals a row of whole stitches is made from the outside towards the inside.

The fillings in the flowers are made right after casting of the flower, as much as possible with pairs or the petals.
